THE CS TIMECLOCK EMPLOYEE LIST SEQUENCE

The Employee List sequence has the following functions:

- Shows the number of employees that are currently clocked In and Out.
- Lists the employees with their current TNA status.
- Displays the employee In time.
- Allows one to query an employee's status from the list.

ACCESSING AND USING THE SEQUENCE

To access the sequence, press # to display your menu options. Press 2 (Enquiry). Press 3 (Employee List).

1. In (32) 2. Out (39) 3. Oll (71)		Sh		
3 011 (21)		In (3	22	
OF MER VERY	ź.	A11 (

Select one of the above options. The employee names in the selected group will be displayed as "Name Surname" in ascending alphabetical order.

Option 1 (all the employees currently clocked In) will also display the employee's In clocking time:

Gerald Awerie	08:04
Nicolene Bekk	07:56
